Summary

Ph.D. candidate in pure mathematics (birational geometry, AMSS–UCAS), active in AI4Math: three AI-generated, human-verified preprints, a research harness for AI-assisted mathematics, and ongoing Lean 4 exploration. Daily user of Arch Linux (2+ years) and Neovim; prefers Rust and C, currently learning C++ / Python (libtorch / PyTorch). Seeking an AI4Math role improving LLM mathematical capability. Areas of interest: LLM training, (mathematical) data annotation, post-training for reasoning, PyTorch / libtorch, and Lean 4 formalization.

Technical Skills

Languages: C++ (libtorch), Rust, C, Shell.

Systems & tooling: Linux (Arch, daily for 2+ years), Git, Neovim; TUI development (ratatui).

Human languages: Chinese (native), English (professional working).

Projects

CALMAN — HIRAETHECHO/CALMAN

Task & event manager with CLI and TUI (Rust). JSONL/ICS storage, CalDAV-compatible; syncs across devices with a self-hosted Radicale server by delegating to git / vdirsyncer / rclone.

MARKERSS — HIRAETHECHO/MARKERSS

TUI RSS reader (Rust, ratatui + feed-rs): Markdown export, URL-only bookmarks. Design-first repo: main branch keeps SPEC / PLAN / DESIGN; implementations on per-language branches (rust / go / cpp).

LICHTUNG — HIRAETHECHO/LICHTUNG

Hugo theme (Go templates / SCSS) built with conversational AI-assisted development; powers two personal sites (docs & blog).

SUCKLESS — HIRAETHECHO/SUCKLESS

My personal fork of dwm / dwmblocks (the X11 dynamic tiling window manager and related desktop components, written in C), patched and maintained by hand (no AI assistance).

Education

ACADEMY OF MATHEMATICS AND SYSTEMS SCIENCE, CHINESE ACADEMY OF SCIENCES *Beijing, China*

Ph.D. in Mathematics (2024 – present)
Advisor: Prof. Yifei Chen

ACADEMY OF MATHEMATICS AND SYSTEMS SCIENCE, CHINESE ACADEMY OF SCIENCES *Beijing, China*

M.S. in Mathematics, May 2024
Thesis: Sarkisov program for foliated pairs
Advisor: Prof. Yifei Chen

BEIHANG UNIVERSITY

Beijing, China

B.S. in Mathematics, June 2020
Thesis: Moduli space of Curves

Awards and Honors

MCM/ICM — Meritorious Winner (twice)
Hua Luogeng Scholarship, Beihang University (twice)
CAS — Merit Student of the Chinese Academy of Sciences
